

# THE LAW CENTER'S CLIENT ASSISTANCE PROGRAM CAN HELP

## ABOUT CAP

The Law Center's Client Assistance Program or CAP helps people with disabilities who are applying for Vocational Rehabilitation (VR) services. CAP advocates for your rights under the Rehabilitation Act and makes sure you get the services you need. CAP is a client-led process, which means you, the client, decide the scope of services provided by CAP. You ultimately get to decide if the options offered by CAP will work for you. Our CAP advocate will help you understand the process and your rights as you move forward with getting the services you need.
